We provide nursing, dementia and respite care from the comfort of our recently refurbished home.

Our spacious, en-suite bedrooms are ready to make your own with personal photographs, small items of furniture and trinkets.

Home-cooked nutritious meals are enjoyed every day in our bright dining areas, or if preferred, meals can be served in our resident's bedrooms.

Our living areas are open plan, perfect for relaxing or taking part in an activity.

Our lovely garden is landscaped with sensory features and is wheelchair-friendly.
