

## care home manager at **Queens** Care Home

### Let me introduce myself...

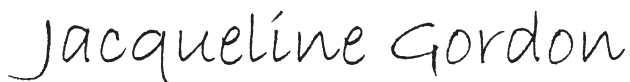

My name is **Jacqueline Gordon** and I am the home manager of **Queens Care Home**, situated in Prestwick, South Ayrshire.

I began working in care from the age of 18, initially supporting children and young adults with autism and also supporting young adults out in the community. This job sparked a passion to care for others and prompted me to complete my nursing degree in 2015. I started at Queens as deputy manager and have recently been promoted to home manager.

The best part about my job is being able to enrich the residents lives and get to know all about them through their stories and reminiscing with their friends and family. It gives me great pleasure advocating on behalf of my residents creating opportunities for them to reach their goals.

I would love to have the opportunity to talk you through our same day assessments and different care options, so if you would like to arrange a virtual or face to face meeting please email **Jacqueline.Gordon@sanctuary.co.uk** or call me on **01292 470 501**.

Yours sincerely

**Jacqueline Gordon**
