# Summary of findings

## Overall summary

Sherwood Forest Residential and Nursing Home provides nursing and personal care for up to 75 people aged 18 years and over. It has two units. Sherwood Suite provides nursing, palliative and residential care for people and Forest Suite provides care and support for people living with dementia. At the time of our inspection there were 58 people using the service.

We found the following examples of good practice:

Staff were adhering to personal protective equipment (PPE) and social distancing guidelines.

There was a business continuity plan in place providing clear guidance on the action to take in the event of a COVID-19 outbreak within the home.

There were systems in place to safely admit people into the care home from both the hospital and community environment.

Multiple donning and doffing stations were available within the care home. PPE was readily available including a grab box for emergencies.

Staff were provided with access to counselling services if required, to support their well-being.

## The five questions we ask about services and what we found

We always ask the following five questions of services.

### **Is the service safe?**

Further information is in the detailed findings below.

# Sherwood Forest Residential and Nursing Home

## **Detailed findings**

## Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the coronavirus pandemic we are looking at the preparedness of care homes in relation to infection prevention and control. This was a targeted inspection looking at the infection control and prevention measures the provider has in place.

This inspection took place on 04 February 2021 and was announced.

# Is the service safe?

## Our findings

S5□ How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider's infection prevention and control policy was up to date.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
